

Samantha Dickson Brain Tumour Trust (SDBTT) and Cancer Research UK (CR-UK) are launching a joint clinical trials initiative for primary brain tumours. Recognising the further need for research into novel agents and therapies in this area, a call for feasibility study applications has been issued. Projects are available in the order of £25,000 per annum (up to a maximum of £40,000 in exceptional cases) for a period of up to 24 months.
